

### What are cookies?

Cookies are small text files that are saved on your computer when you visit a website.

In this text file information is saved, e.g. your language preference for a website. When you visit this website again, this cookie is sent to the website. This way the website recognizes your browser and is it able to remember your language preference.

Cookies usually expire after a certain period of time. Some cookies for example are deleted automatically once you have closed your browser (the so-called *session cookie*), others remain on your computer for a longer period of time, sometimes even until you manually delete them (the so-called *persistent cookie*).

### Why do we use cookies?

The manager of this website uses two kinds of cookies on this website: cookies used for functional purposes and cookies used for analytical purposes.

Our website uses *functional cookies*. This means that these cookies are necessary for the website to function correctly. You will have to accept these cookies if you want to read the content on our website.

Additionally we use Google Analytics for analytical purposes. This analysis tool implements cookies so we can measure website visits (traffic). This allows us to determine for example how many times a specific page has been read. This information is only used to improve the content on our website, or as a basis on which we can develop new campaigns around a specific subject that peaks interest. Your consent will be asked prior to your visit of our website. It is therefore possible to refuse the downloading of these cookies on your device.

### Which cookies are used on this website?

You can find a list below specifying the cookies used on this website, and what they do.

#### Functional cookies

You cannot refuse these cookies if you want to surf on our website.

Name	Expiration period	Goal
waxlang	This cookie expires after 12 months.	This cookie remembers the language of the website you have visited.
